## Please follow the instructions given below

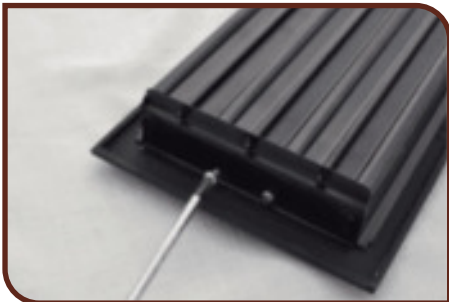

**Steel Dampers at back**

**Screws attached to Damper**

**Use screw driver to lose screws**

**Remove screws from damper**

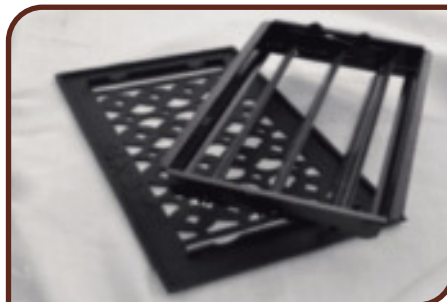

**Keep screws safe to re use them**

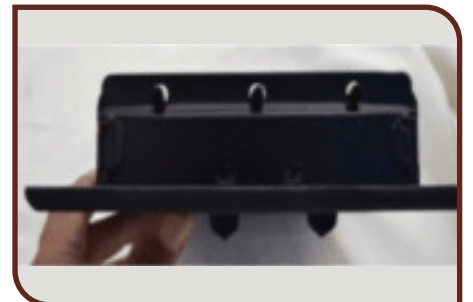

**Detach damper from face plate**

**Keep damper if required**

**You can fix them back**

**Fix damper back on face plate and insert screws in the holes.**

You may require to clean the floor register or want to re-paint them. This is easy way to remove and fix it back. The steel dampers at back are removable and can be removed just using screw driver, as shown. For more details please contact us.
